This document provides you with key investor information about this Subfund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Subfund. You are advised to read it so you can make an informed decision about whether to invest.

Dovre Inside Nordic

Subfund of open harmonized umbrella investment fund Dovre Umbrella Fund, ISIN LTIF00000625, managed by management company UAB "Dovre Forvaltning". Supervisory authority: Lithuanian bank, Žirmūnų str. 151, Vilnius, Lithuania.

Objectives and investment policy

Objective

To achieve returns on investment greater than the ones of the chosen benchmark index by investing in attractive companies situated in Nordic countries (Denmark, Norway, Sweden, Finland). The main method for choosing in which companies to invest is by tracking insiders' transactions.

Investment policy

Subfund's assets will be invested mainly in shares, but the Subfund may also invest in companies' debt securities. In the non-standard market situations, the Subfund may use derivative financial instruments to manage currency risk. The Subfund will seek that ~ 90% of its assets would be always invested.

Recommendation

This Fund may not be appropriate for investors who plan to withdraw money within the period of 3 years.

Risk and reward profile

The synthetic indicator:

Subfund's risk category is 5. The synthetic indicator of the Subfund shows the relationship between risk and potential reward. Risk category is calculated using the Subfund's benchmark index historical data. Risk category is not guaranteed - over time it can change. Historical benchmark data used in calculating the synthetic indicator may not be representative of the Subfund's future sound risk profile. Please note that the lowest category does not mean 'risk-free investment'.

Subfund's risk category shows that investments in equity value may rise or fall. This may be the result of one or more of the following reasons: the general trends in the financial markets, companies' economic development, world's economic situation, as well as each country's economic and political conditions.

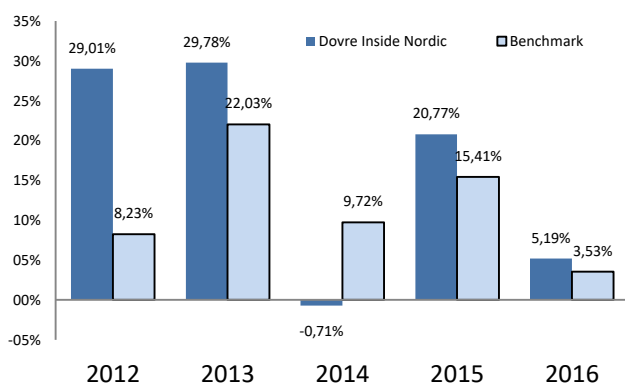

More information about risk factors can be found in the prospectus in paragraph 30 "Investment risk and its management," which is available on the website www.dovreforvaltning.com.
